Collection Notice: Any personal information collected on this form is necessary to administer the Eastern Ontario Crop Diagnostic Day offered by the Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA) and the Eastern Ontario Crop Advisory Committee. It will be used to register you at the conference and to notify you of related events in the future. Payment will be forwarded to and processed by the Eastern Ontario Crop Advisory Committee. Questions about the collection of information can be directed to the Agricultural Information Contact Centre (AICC) at 1-877-424-1300.

By completing this form, you agree to the collection notice above and agree to be notified of future related events that OMAFRA may organize.

TIME & LOCATION

8:30 am (registration)

9:00 am - 3:30 pm

Winchester Research Station
12088 Baker Road, Winchester, ON

UNIVERSITY
of **GUELPH**

TOPICS IN 2019

Cover Crop Roots - A look at the differences in root growth and structure of various cover crop species and how they can be used to achieve better soil health.

Diagnosing Nutrient Deficiencies - Greenhouse-grown crops showing different deficiencies.

Avoiding Tank Mix Errors - Discussion of tank mixing best practices along with demonstration of common mistakes and how to avoid them

Drainage Dilemma - What is the connection between soil compaction, soil health, drainage and tile spacing?.

Soybean Power Start Program - Should nitrogen be used to help overcome early season stress? Are lower seeding rates necessary for intensively managed soybeans? This stop will discuss early season issues and solutions

Cereal - Malipulator growth regulator, Sulphur on wheat - Fertility and growth regulators working together

Strip-till - What's a safe starter fertilizer rate with strip-till? A look at where and when is best apply starter fertilizers in a strip-till system.

Forages - 4 Rs - 4R Nutrient Stewardship on forages and using fertility to improve yield!

Insect Resistance Management Whether it's insecticide or transgenics, learn how to mitigate insect resistance.

Let's Talk Disease Management - What's going on with diseases in 2019 and beyond!

EOCDD

The diagnostic day is designed specifically to improve the problem-solving skills of growers, agricultural consultants and seed, fertilizer and chemical industry personnel.

The Eastern Ontario Crop Diagnostic Day will provide growers and agri-business personnel with “hands-on” learning experiences to assist with the correct identification and treatment of crop problems common to eastern Ontario. The program will provide a “real-world” environment where agriculturists can hone their crop troubleshooting skills and evaluate new and alternative management strategies.

This is the 21st annual Eastern Ontario Crop Diagnostic Day that will highlight current topics of interest. The long-term goal of the day is to provide quality, state-of-the-art training in all aspects of crop production and management.

To facilitate discussion with speakers, participants will be divided into small groups of about 20 people. Each group will rotate through each location. Staff from the Ontario Ministry of Agriculture, Food and Rural Affairs and University of Guelph will conduct these sessions.

HOW TO REGISTER

By Cheque

Mail the Registration Form along with your cheque to:

Eastern Ontario Crop Advisory Committee
C/O OMAFRA
59 Ministry Drive
Kemptville, ON K0G 1J0

By Credit Card

Visit: www.eastontcropconference.ca

REGISTRATION FEE

Pre-Registration
(before July 12th, 2019)

General Admission : \$105
OSCIA Members: \$100
Students: \$30

Walk-ins
(at the door on July 18th, 2019)

All Registrations: \$125

Inquiries can be directed to Agriculture Information Contact Centre, OMAFRA at:
1-877-424-1300
