

Eastern Ontario Crop Diagnostic Day

Wednesday, July 10

10:30am—Station Tour
11:30am—Lunch & Registration
12:20pm—Welcome
12:30—4:15pm—Sessions

Thursday, July 11

8:00am—Registration & Welcome
8:30am—12:30pm—Sessions
12:30pm—Lunch
1:00pm—Station Tour

Topics

Alfalfa on Acid; a Dive into Soil pH & Alfalfa

Assessing root nodulation in alfalfa, and how soil pH affects nodulation and plant growth.

Feel the Burn! Exploring Fertilizer Burn in Corn

How much starter fertilizer is too much? What about strip till? How do you reliably diagnose fertilizer burn? Hands-on exploration of these questions and MORE.

Considering Canola: Tips for Adding Canola to the Rotation

Have you considered adding canola to your crop rotation? We'll discuss rotation, seeding for success, and the risks and benefits of winter and spring canola in Eastern Ontario.

Integrated Pest Management in Eastern Ontario

Join our experts for a session on this year's hot disease and pest problems!

Filling the nitrogen gap for high yield soybeans with fertilizer and biologicals

High yield soybeans need more nitrogen than traditional biological root N fixation can supply. This session will discuss new options to supplement N and plant health.

Speakers

Christine O'Reilly, OMAFRA
Colin Elgie, OMAFRA

Ben Rosser, OMAFRA

Meghan Moran, OMAFRA

TBD

Greg Stewart, Syngenta
Horst Bohner, OMAFRA
